

Dimensions (cm)	1 feed type	60.5 x 19.5
	2 feed types	69.8 x 19.5
Max. content (l)		6 (*) / 7 (**)
Min. content (l)		1 (*) / 1.2 (**)
Scale adjustment		per 0.1 l (no linear weight increase)
Tailor-made tops for different tube sizes (mm)		56, 60, 75, 90
Specific weight of sow feed (g/l)		650 – 800
Perform a calibration for each new feed.		
Opening/closing system		by gravity, with dump ball
Max. number of dispensers per opening system	manual opening system: 100 (***)	
	automatic opening system: 400	
Material		polypropylene
Daily feed consumption (gestation) (kg)		1.0 – 3.5
Daily feed consumption (farrowing) (kg)		4.0 – 8.0
Daily water consumption (gestation) (l)		10 – 20
Daily water consumption (farrowing) (l)		20 – 40
Feeding space per sow (cm)		50 – 60
Number of meals per day		1 to 4
<p>(*) Meal</p> <p>(**) Pellets</p> <p>(***) Opening system with cable: maximum 50 dispensers per line</p> <p>(***) Opening system with tube: maximum 100 dispensers per line</p>
