

Animal info					
Number of birds/pan		10			
Average age at removal (weeks)		65			
Average weight at removal (kg)		4.5			
Max. daily feed intake (g/bird)		130 - 150			
Technical info					
Pan	Material	polypropylene (nylon top support)			
	Dimensions	488 x 325 mm			
	Average pan contents	350 g			
	Quantity per feed level	approx. 16 g			
Transport	Material tubes	galvanized steel			
	Outside diameter tube	44.5 mm			
	Feed amount	600 g/m tube			
	Max. pellet diameter	4 mm			
	Power unit	0.55 kW – 3/4 HP			
		3 phase 50 Hz			
		560 rpm			
	Feed transport capacity	700 kg/h			
	Max. length of the line	1 pan/tube	150 m		
		2 pans/tube	150 m		
		3 pans/tube	130 m		
CIRCUITS	House length	Auger speed (m/min)	Number of fill points	Circuit capacity (kg/h)	Power unit (kW)
Simultaneous filling	80–150 m	30	2	2 x 1300	0.37
Suspension points		max. every 3 m			
Installation time (including assembly)		3 skilled people: 1 line (100 m) per day
